■ **1H24 preliminary sales.** Intred reported revenue of over €27.5mn for 1H (our exp. €27.4mn), marking a 12.1% increase. Excluding the contribution of Connecting Italia of c. €1.6mn (our exp. €1.5mn), standalone revenue was €25.9mn, up 5.6% (1Q: +6.4%, 2Q: 5.1%). The growth is attributed to successful expansion into traditionally weaker provinces like Milan, Pavia, Lecco, Mantua, and Sondrio, largely due to the School Tenders initiative, which facilitated the deployment of proprietary fibre. Management also highlights the positive impact of ongoing communication campaigns featuring football legend Andrea Pirlo, which are expected to further boost revenue and market penetration in the coming months.

■ **Revenue growth across all customer segments:** Business segment (56% of total) including Connecting Italia, a 100% business-dedicated asset, confirmed the high-teen trajectory (1Q: +19%, 2Q: +18%) and was the major contributor to growth in 1H. Wholesale segment (8% of total) saw a 12% increase in the first half, with a notable acceleration from 5% growth in 1Q to 19% in 2Q, likely due to different phasing. The Public Administration (19% of total) and Residential (17%) segments showed steady growth, each increasing by mid-single digits in 1H. The company's core business, recurring services, accounted for over 87% of total revenue, reaching €24.1mn, a 14.1% increase. Fibre optic connections drove a significant revenue rise of 13.3% to €16.8mn.

■ **Strong execution on School Tenders, solid KPIs.** The School Tenders programme led to the activation of >3,900 schools (out of a total of approximately 5,000), generating €4.4mn top line (16% of 1H revenues). Intred's proprietary fibre network expanded by 10.1%, reaching nearly 13,000km by June 2024, from >11,700km as at the end of 2023. The company maintained an industry-leading low churn rate of 4.6%, reflecting high customer loyalty.

■ **No change in estimates.** 1H sales growth is on track with our FY assumption (+14.9% YoY to €57.5mn, including a €3mn boost from Connecting Italia). Consequently, we are keeping our estimates unchanged.

■ **BUY confirmed; target still €16.5.** The strong first-half results across all customer segments, combined with accelerated value creation through Connecting Italia, bode well for the coming quarters and provide greater visibility on our current estimates. We appreciate INTRED's business model, as it offers a very attractive risk-return profile thanks to: a) a proprietary network focused on future-proof UBB technology (no risk of disruptive change and limited long-term CapEx needs) and first-mover advantage in Lombardy, a highly strategic location (1/5 of Italy's GDP) with a strong presence of SMEs; b) footprint expansion from School Tenders and a commercial investment cycle to support long-term growth and a faster take-up rate; c) strong visibility on IRR (upfront CapEx with guaranteed returns) with downside protection (visible and recurring revenue streams, low churn); d) a supportive regulatory framework (NRRP); e) long-term optionality offered by attractive assets (proprietary network, well-established and loyal customer base) in a potential market consolidation scenario.

IMPORTANT DISCLOSURES

The reproduction of the information, recommendations and research produced by Intermonte SIM contained herein and of any its parts is strictly prohibited. None of the contents of this document may be shared with third parties without authorisation from Intermonte.

This report is directed exclusively at market professional and other institutional investors (Institutions) and is not for distribution to person other than "Institution" ("Non-Institution"), who should not rely on this material. Moreover, any investment or service to which this report may relate will not be made available to Non-Institution.

The information and data in this report have been obtained from sources which we believe to be reliable, although the accuracy of these cannot be guaranteed by Intermonte. In the event that there be any doubt as to their reliability, this will be clearly indicated. The main purpose of the report is to offer up-to-date and accurate information in accordance with regulations in force covering "recommendations" and is not intended nor should it be construed as a solicitation to buy or sell securities.

This disclaimer is constantly updated on Intermonte's website www.intermonte.it under LEGAL INFORMATION. Valuations and recommendations can be found in the text of the most recent research and/or reports on the companies in question. For a list of all recommendations made by Intermonte on any financial instrument or issuer in the last twelve months consult the [PERFORMANCE](#) web page.

Intermonte distributes research and engages in other approved activities with respect to Major U.S. Institutional Investors ("Majors") and other Qualified Institutional Buyers ("QIBs"), in the United States, via Plural Securities LLC under SEC 15a-6 guidelines. Intermonte is not registered as a broker dealer in the United States under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), and is not a member of the Securities Investor Protection Corporation ("SIPC"). Plural Securities LLC is registered as a broker-dealer under the Exchange Act and is a member of SIPC.

ANALYST CERTIFICATION

For each company mentioned in this report the respective research analyst hereby certifies that all of the views expressed in this research report accurately reflect the analyst's personal views about any or all of the subject issuer (s) or securities. The analyst (s) also certifies that no part of their compensation was, is or will be directly or indirectly related to the specific recommendation or view in this report.

The analyst (s) responsible for preparing this research report receive(s) compensation that is based upon various factors, including Intermonte's total profits, a portion of which is generated by Intermonte's corporate finance activities, although this is minimal in comparison to that generated by brokerage activities.

Intermonte's internal procedures and codes of conduct are aimed to ensure the impartiality of its financial analysts. The exchange of information between the Corporate Finance sector and the Research Department is prohibited, as is the exchange of information between the latter and the proprietary equity desk in order to prevent conflicts of interest when recommendations are made.

The analyst responsible for the report is not a) a resident of US; b) an associated person of a U.S. broker-dealer; c) supervised by a supervisory principal of a U.S. broker-dealer. This Research Report is distributed in the U.S. through Plural Securities LLC, 950 3rd Ave, Suite 1702, NY 10022, USA.

GUIDE TO FUNDAMENTAL RESEARCH

The main methods used to evaluate financial instruments and set a target price for 12 months after the investment recommendation are as follows:

- Discounted cash flow (DCF) model or similar methods such as a dividend discount model (DDM)
- Comparison with market peers, using the most appropriate methods for the individual company analysed: among the main ratios used for industrial sectors are price/ earnings (P/E), EV/EBITDA, EV/EBIT, price /sales.
- Return on capital and multiples of adjusted net book value are the main methods used for banking sector stocks, while for insurance sector stocks return on allocated capital and multiples on net book value and embedded portfolio value are used
- For the utilities sector comparisons are made between expected returns and the return on the regulatory asset base (RAB)

Some of the parameters used in evaluations, such as the risk-free rate and risk premium, are the same for all companies covered, and are updated to reflect market conditions. Currently a risk-free rate of 4.0% and a risk premium of 5.5% are being used.

Frequency of research: quarterly.

Reports on all companies listed on the S&P500 Index, most of those on the MIDEX Index and the main small caps (regular coverage) are published at least once per quarter to comment on results and important newsflow.

A draft copy of each report may be sent to the subject company for its information (without target price and/or recommendations), but unless expressly stated in the text of the report, no changes are made before it is published.

Explanation of our ratings system:

BUY: stock expected to outperform the market by over 25% over a 12 month period;

OUTPERFORM: stock expected to outperform the market by between 10% and 25% over a 12 month period;

NEUTRAL: stock performance expected at between +10% and -10% compared to the market over a 12 month period;

UNDERPERFORM: stock expected to underperform the market by between -10% and -25% over a 12 month period;

SELL: stock expected to underperform the market by over 25% over a 12 month period.

Prices: The prices reported in the research refer to the price at the close of the previous day of trading

CURRENT INVESTMENT RESEARCH RATING DISTRIBUTIONS
